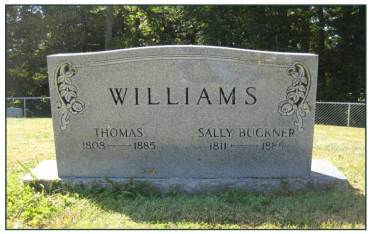
West Jordan City Cemetery

The West Jordan Cemetery is a place to visit, to reflect and to cherish memories of your loved one. This guide is designed to answer your questions so that you can focus on your loved ones rather than burial details. City staff is here to help. If you don't find the answers you are looking for, please call 801-567-9974.



Funeral Home or Mortuary Responsibilities

Memorializing a loved one is very personal. Many of the details will be coordinated with your funeral home or mortuary and not the City.

The following lists materials and services that are the responsibility of the family, the mortuary and/or contractors of the funeral home:

- Purchasing the vault, casket, or monument
- Setting up chairs and tent
- Installing the lowering device
- Adjusting the monument

City Responsibilities

The City is responsible for:

- Maintaining cemetery grounds
- Maintaining cemetery roads
- Opening/excavating the grave
- Closing/backfilling the grave
- Repairing and restoring graves

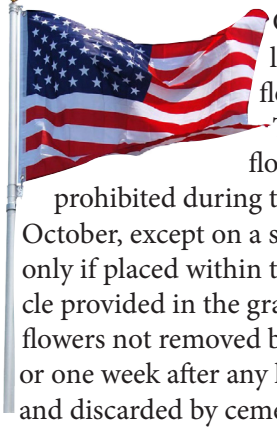
Please keep in mind this work is weather dependent. Graves which are opened and closed during the winter months are restored in the spring.

Funeral Arrangements/Scheduling

- All burials must be scheduled at least two business days in advance of the planned burial date.
- All burials must be scheduled before 4:00 p.m.
- All scheduling for burials must be submitted either by the acting mortuary or by the family of the person to be buried.
- All fees must be paid in full before service is rendered.

The Cemetery Sexton meets by appointment only. Call 801-567-9974 for an appointment.

Grave Decorations



Grave decorations are limited to flowers, artificial flowers and national flags. The placement of artificial flowers within the cemetery is prohibited during the months of April through October, except on a state recognized holiday only if placed within the container or receptacle provided in the grave marker. Any artificial flowers not removed by the owners by April 1st or one week after any holiday may be removed and discarded by cemetery personnel. All flowers and floral pieces will be removed without notice when they become unsightly. To protect the safety of cemetery personnel, no glass including vases and other containers is permitted and will be removed if found.

Grave markers

All grave markers or monuments shall be installed with a finished grass level stone or concrete base extending outward for a minimum of 8 inches from the outer perimeter of the base of the marker or monument or from the receptacle for a flower vase or pot.

Above-grass-level markers and monuments are permitted in all areas of the city cemetery. If the placement of a given grave marker interferes with the opening of a grave site, the family of the person to be buried is responsible for arranging to have the grave marker removed.

The maintenance and repair of grave markers, including the repositioning of settled grave markers, is the responsibility of the individual who purchased the plot, which is typically the family of the person buried. The city assumes no responsibility for any damage, regardless of the source of the damage, to any grave marker or monument.

Above-grass-level markers and monuments shall not be set in the city cemetery after October 15 until the following March 1. Above-grass-level markers will be set after March 1 of the following year as soon as weather conditions permit.

If two burials are made in the same gravesite, two markers may be installed, however one must be a flat grass-level marker.

All burials require a concrete burial vault.

A maximum of two burials may be made in any given burial space, excluding two full-sized adult vaults. The combinations permitted are as follows:

- One Adult Vault
- Two Infant Vaults
- Two Urn Vaults
- One Infant, One Urn
- One Adult, One Infant
- One Adult, One Urn
